## **PART V – EVALUATION CRITERIA & PRICE BID ISSUES**

1. **Evaluation Criteria.** The broad guidelines for evaluation of Bids will be as follows:-

- (a) Only those Bids will be evaluated which are found to be fulfilling all the eligibility and qualifying requirements of the RFP, both technically and commercially.
- (b) In respect of Two-Bid system, the technical Bids along with samples forwarded by the Bidders will be evaluated first by the Buyer. The compliance of Technical Bids would be determined on the basis of the parameters specified in the RFP. The Price Bids corresponding to only those samples will be opened who would clear the technical evaluation.
- (c) The Lowest Bid will be decided upon the lowest price quoted by the particular Bidder as per the Price Format given. All taxes and duties quoted by the Bidders will be considered. The ultimate cost to the Buyer inclusive of all taxes would be the deciding factor for ranking of Bids.
- (d) The Bidders are required to spell out the rates of Customs duty, Excise duty, VAT, Service Tax, etc in unambiguous terms; **otherwise their offers will be loaded with the maximum rates of duties and taxes for the purpose of comparison of prices.** In absence of any specific stipulation it will be presumed that the prices quoted are firm and final and no claim on account of other duties will be entrained after the opening of tenders. If a Bidder chooses to quote a price inclusive of any duty and does not confirm inclusive of such duty so included is firm and final, he should clearly indicate the rate of such duty and quantum in the price. Failure to do so may result in ignoring such offers summarily. If a Bidder is exempted from payment of Customs duty / Excise Duty / VAT duty upto any value of supplies from them, they should clearly state that no excise duty will be charged by them up to the limit of exemption which they may have. If any concession is available in regard to rate/quantum of Customs duty / Excise Duty / VAT, it should be brought out clearly. Stipulations like, excise duty was presently not applicable but the same will be charged if it becomes leviable later on, will not be accepted unless in such cases it is clearly stated by a Bidder that excise duty will not be charged by him even if the same becomes applicable later on. In respect of the Bidders who fail to comply with this requirement, their quoted prices shall be loaded with the quantum of excise duty which is normally applicable on the item in question for the purpose of comparing their prices with other Bidders. The same logic applies to Customs duty and VAT also.
- (e) If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price will prevail and the total price will be corrected. If there is a discrepancy between words and figures, the amount in words will prevail for calculation of price.
- (f) The Lowest Acceptable Bid will be considered further for placement of contract / Supply Order after complete clarification and price negotiations as

-----  
(Signature of Seller)

-----  
(Signature of Buyer)

decided by the Buyer. The Buyer will have the right to award contracts to different Bidders for being lowest in particular items. The Buyer also reserves the right to do Apportionment of Quantity, if it is convinced that Lowest Bidder is not in a position to supply full quantity in stipulated time.

(g) Any other criteria as applicable to suit a particular case.

2. On finalization of contract, SSCB would place order as on required basis, however firms should be able to supply at short notice. On issuance of supply order, the firm is to supply within 10 days at any given point of time.

3. Average quantity needed for each item is given in the list. However quantity mentioned is only tentative and represent anticipated drawl for one year. Quantity may vary according to actual need. If required, the vendor should be able to replace / exchange the sizes of kit at short notice.

### **Determination of L-1 Firms**

4. The bidder shall have to quote price for single piece and sample of each item.

5. The bidders are required to submit Samples conforming to the technical specifications against each item. The Technical Evaluation Committee will assess each sample for technical conformity, workmanship and user acceptance. Only those samples which pass the technical evaluation will be considered for commercial assessment and the lowest priced sample of the technically accepted sample will be considered for conclusion of Rate Contract.

6. During technical negotiations, the Technical Board/Committee will access the samples of the items tendered against quality/specifications, workmanship, user acceptance. All bidders are to submit samples of items quoted. Samples of L1 firms will be retained with SSCB till placement of order/finalization of the contract for comparison with items supplied eventually and the rest will be returned. Vendors are to suitably pack their samples in a transparent cover for easy reference and tag it appropriately and prominently with the description of the item and the vendor's name.

7. The bidder shall have to agree that the rate shall be valid up to one year from the date of signing the contract.

8. **Each page of the tender should be signed by the tenderer and name & designation should be mentioned in block letters.** Individual signing must indicate whether he is the sole Proprietor/Partner of the firm/constituted attorney of the firm. A person signing the tender on behalf of another shall be deemed to have an authority to bind other person (s) for present and future.
